NEW SERIES.

SEDALIA, MISSOURI, MONDAY EVENING, FEBRUARY 25, 1895.

PRICE, FIVE CENTS.

"STILL THEY COME."

Congratulations on Capital Removal Are Many.

COME FROM ALL SECTIONS.

The Praises of Sedalia Are Being Sung and Death Knell of Jefferson City Sounded.

There appears to be no end to the capital removal boom. From the Iowa to the Arkansas lines and from the Mississippi to the Kaw rivers the praises of Sedalia are being sung and Jefferson City's death knell sounded. It certainly begins to look as if the majority in favor of the proposition would reach the 60,000 mark claimed for it by ex-State Senator Ketchum—in fact, that his figures would be more than verified. Following are some additional expressions on the subject:

Cause for Congratulation.

A well known and influential citizen of Saline county writes to the editor of the DEMOCRAT as follows: "I heard yesterday evening of the splendid triumph of Sedalia, and Missouri as well, on the capital removal question. I have so long desired to see the capital removed from its present location that I am overjoyed at the prospect. Three cheers for Yeater, Bothwell, Sedalia and Missouri."

Sedalia Men Confident.

A delegation of fifteen Sedalians arrived in St. Louis yesterday, and several more are expected today, says this morning's Globe-Democrat. They represent the largest business houses of that town, and have come to exert their influence in securing the aid of their St. Louis brethren in their scheme for moving the state capital from Jefferson City to Sedalia. J. C. Van Riper and Dr. A. T. Fleischmann have the party in charge. The gentlemen are all confident that the matter, when submitted to a vote, will be decided in their favor, and will work from now on with that end in view. The delegation will visit the Merchants' Exchange in a body today, and each member will work individually among his friends while in the city.

It Is Going to Carry.

Dr. W. N. Graham, Sedalia, Mo.: HUMPHREYS, Mo., Feb. 21.—DEAR SIR—I congratulate you and Sedalia on the great success of getting your removal resolution through the legislature. This proposition is going to be carried by the people in 1896.

D. N. CROUCH, Member of the Thirty-Sixth General Assembly.

Favors the Measure.

Senator Ballard, of Henry county, is in receipt of the following letter from ex-Senator Bradley, of Bates county:

PAINEVILLE, Mo., Feb. 21, 1895.—HON. J. N. BALLARD, Jefferson City, Mo. DEAR SIR—I see in this morning's paper that a resolution submitting to a vote of the people the question of "Capital Removal" to Sedalia was passed.

I assure you that I am very much gratified at the prospect of moving the capital to a live town—one that

the people of the state will not be ashamed of. It is a move that I have always favored, and I am glad to see that you supported the resolution.

Give my respects to Senator Yeater. Tell him that he and Sedalia can rely on me to do anything that is honorable to carry the measure through successfully. Yours very respectfully, etc.

J. W. BRADLEY.

Another Editor.

Hon. P. D. Hastain, Sedalia, Mo.: LANCASTER, Mo., Feb. 21.—

Dear Sir and Friend: Allow me to congratulate you on your successful fight at Jefferson City on the state capital removal. May you and your little city be equally as successful at the polls in November, 1896. Yours, &c.,

G. M. POTTER,

Editor Lancaster Republican.

Another Editor.

Hon. P. D. Hastain, Sedalia, Mo.: NEOSHO, Mo., Feb. 23.—MY

DEAR HASTAIN—Allow me to congratulate you on your capital removal resolution. You can have my work and I think a majority vote in this (Newton) county when the time comes. Yours,

LEE D. BELL.

A FALSE STATEMENT.

A Jefferson City Paper Makes It in Regard to Smallpox.

Under a double head, the captions being "Smallpox" and "Several Cases in Sedalia Scare the People," the Jefferson City Courier of Sunday printed the following:

"Mr. Sam Sone yesterday received a letter from a friend in Sedalia, saying that the rejoicing over the capital removal is tempered with sadness. A negro man has a bad case of smallpox, and three or four others were exposed. The house was burnt and the negroes sent out of town. Sedalia is full of excitement on account of it."

The paragraph quoted is misleading in more than one particular. In the first place, there is no excitement whatever on account of smallpox or any other disease, nor is the city's rejoicing over the certainty of capital removal "tempered with sadness."

It is true that a negro tramp from St. Louis, who had also tarried in Jefferson City, showed up here with smallpox. His condition was quickly discovered, however, and he was removed to a pest house four miles from town, as was also three other persons who had been thrown in contact with him, and the strictest quarantine regulations have been enforced since, so that there is not the least danger of the disease spreading.

The shanty where the negro slept was promptly burned, and Sedalia is as free from smallpox as any city in the country. These are the facts in the case, and if the Courier can make any capital out of them it is at liberty to do so.

Caught His Leg in a Wheel.

Marvin, the 9-year-old son of Wm. Nye, the barber, attempted to jump into the rear end of old man Wells' express wagon, at Third and Ohio streets, this morning, when his left leg was caught between the spokes of a wheel and quite badly wrenched, but no bones were broken. Dr. S. K. Crawford attended the lad and he was sent to his home, No. 1212 Ohio street, on a street car.

MRS. BERRY'S DEATH.

She Passed Away at 11:05 A. M. Sunday—Buried at Chamois.

Mrs. Sarah E. Berry, wife of Councilman T. P. Berry, and who has been indisposed since last September, died at the family residence on East Fourth street at 11:05 yesterday forenoon, aged 48 years and 18 days.

The deceased was born at Fowler, St. Lawrence county, New York, and was married to Mr. Berry at Barnesville, O., November 9, 1865. The following February they came to Sedalia, and have resided here and at other points in Missouri continuously since.

Six children are left to mourn the loss of a loving mother and devoted wife—three sons and two daughters, the youngest a babe.

Mrs. Berry was for many years a

CHRISTIAN CITIZENSHIP.

Bishop Watterson, of Columbus Diocese, Addresses a Y. M. C. A. Meeting.

COLUMBUS, O., Feb. 25.—Rev. John A. Watterson, bishop of the Columbus diocese, addressed a big meeting of the Y. M. C. A. yesterday. As many persons as gained admittance to the hall were turned away. This was the first time in history that a Catholic clergyman had addressed a meeting under the auspices of the Y. M. C. A., and naturally attracted wide attention. The bishop was introduced by General Secretary W. T. Perkins, and spoke for an hour and a half on Christian citizenship, the audience being held in rapt attention and frequently breaking into applause. When the bishop advanced on the platform the applause amounted to an ovation, and he thanked the audience for their generous welcome. It showed him, he said, that they did not regard him as a bull in a china shop, and especially a papal bull in the beautiful china shop of the Y. M. C. A. The climax of his eloquent address was reached in the following passage:

"While I am uncompromising in the matter of my faith and inflexible in those lines of conduct which depend on the principles of faith, and while I would deserve the contempt and scorn of every right minded man if I were recreant to my conscience in those things which I hold as truths, yet I know of no doctrine of the Catholic church which prohibits or prevents me from working for the good of my fellow-men, no doctrine which interferes with my allegiance to the government and laws of my country. On the contrary, I know that the whole teaching and the whole spirit of my religion requires me to be true to my country and its government and

delightfully spent with popular games and amusements, after which refreshments were served. Among those present were: Misses Lulu and Ora Neff, Katie Ernest, Nellie Beasmore, Maud Gross and Julia Burmaster; Messrs. John Raypole, Chas. Dunlap, James Harvey, H. L. Triplett and Prof. O. F. Bailey; also Mr. and Mrs. W. A. Allen and Mr. and Mrs. T. H. Myers.

SHALL WOMEN VOTE.

The Female Suffrage Amendment Up for Consideration.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., Feb. 25.—Shall women have the right to vote in Missouri? That is the question that is up for consideration this afternoon in the house, where the Sartin concurrent resolution submitting an amendment to the constitution authorizing women to vote is the special order which was taken up at 2 o'clock. The galleries are filled with ladies who are anxious to hear the debate on the resolution and many of the members have prepared speeches on the subject.

The fellow-servant bill will come up in the senate on Tuesday, when a big delegation of railroad employes will be presented, and it is understood that if the bill is defeated it is the purpose of those who are friendly to the measure to try to get it introduced in the shape of a constitutional amendment.

CURRENT GAVE OUT.

Trolley Car Stalled in Front of a Locomotive.

NEWARK, N. J., Feb. 25.—A trolley car with a big load of passengers had a narrow escape yesterday afternoon from being smashed into kindling wood by a train on the Pennsylvania railroad. Just as the trolley car reached the Pennsylvania tracks the electric current, for some accountable reason, gave out, and left the car stalled on the tracks directly in the path of the train. Then the flagman, warned by the electric signal bell, began to let down the bars, shouting to the motorman to "hurry up," but the latter was unable to do anything, and the railroad people hastened to flag the train. The ringing of bells, the shouts of the flagman and the excited, pale faces of the conductor and motorman, warned the passengers that something was wrong, and they began a hurried exit from the car. Men, women and children jostled and pushed their way from the car and fled to the sidewalk, frightened and trembling. As they left the car the big engine of the express appeared around the bend. The engineer sighted the warning flags and promptly reversed his lever, the sudden jar sending the water splashing from the tender in jets that spouted out half a hundred feet. The engineer's efforts were successful, and the engine came to a standstill about 10 feet from the place where the car was standing.

Death of Mrs. Anderson.

Mrs. Harriet Anderson, wife of Richard Anderson, colored, and for fifty years a resident of Missouri and Pettis county, died at her home in Lincolnville at 6 o'clock yesterday morning, of asthma. The burial service will be conducted at the A. M. E. church at 2 o'clock tomorrow afternoon, Rev. Tays officiating.

A Pleasant Reception.

A reception at Miss Susie Tussley's, No. 416 Ohio street, last Saturday evening, was quite a notable event. A number of guests were present, and the evening was

Miss Harris' Piano Arrives.

The handsome piano purchased by Miss Beulah Harris' friends when she withdrew from the Gazette's contest arrived here this morning and was placed in position at Miss Harris' home. It was given a thorough test and pronounced one of Decker Bros.' best—a duplicate, in fact, of the one awarded Miss Amick. The purchase was made of Billings & Hoffman by Miss Harris' friends, and it is needless to say that the young lady is proud of the gift.

THAT PAPAL DECREE.

Archbishop Corrigan Gives It to the New York Diocese by Letter.

NEW YORK, Feb. 25.—Archbishop Corrigan yesterday sent to every priest in the diocese of New York the following letter:

"REV. DEAR SIR—A recent decree of the Holy Office, confirmed by the sovereign pontiff, instructs the bishops of the United States to advise the faithful committed to their charge against affiliation with societies known as the Odd Fellows, Sons of Temperance and the Knights of Pythias, with the further injunction that if Catholics, after such admonition, persist in their connection with any of these societies and will not give up the membership therein, they cannot receive the sacraments. The general reasons on account of which it is unlawful for Catholics to join societies forbidden by the church will be found in the third plenary council of Baltimore. I am, Rev. dear sir, very faithfully yours,

THE DEMOCRAT, SEDALIA, MO.

OFFICE, 307 Ohio Street. Telephone 252.

The state eleemosynary institutions must be liberally supported.

The north and south railroad will be completed from the Missouri river to the Queen City of the Ozarks in less than twelve months. This is one of the great results of capital removal.

MANY Sedalians availed themselves of the privilege of a day in Forest park yesterday, and the hope is confidently expressed that by the time warm weather comes the artesian well will be finished and a beautiful lake provided.

The capital removal question is now before the people. If the amendment carries and the capital is moved to Sedalia, the state will be furnished with large, elegant, handsome, modern buildings. If it remains at Jefferson City these buildings will have to be erected at the expense of the taxpayers.

The university is a state institution. It is the head of our educational system. As a matter of state pride, as well as of state interest, it should be handsomely supported. The amount originally asked for—nearly half a million dollars—was more than the state could afford to give the institution. But the \$262,000 now asked for by the board of curators is needed, and is not an exorbitant appropriation. The DEMOCRAT is fair enough to say this and to plead for progress in our educational institutions, even though the Columbia Herald seems wedded to, antediluvian ideas and opposed to the interest of Sedalia and the state.

SUPERB GENERALSHIP.

The St. Joseph Herald, the only metropolitan newspaper in the state which has squarely opposed capital removal—and whose editor, Major Bittinger, voted and spoke against the resolution—has the following editorial which not only pays a merited compliment to Senator Yeater and Representative Bothwell, but in every line emphatically contradicts the silly story to the effect that unfair means were used to pass the resolution.

The Herald, recognizing merit even in gentlemen who differ from it, says:

"The greatest legislative generalship, if we may be allowed to use the term, that has ever been known in the state of Missouri was that which culminated in the house and senate passing the capital removal resolution in one day. Whatever one may think about the removal scheme it must be admitted that Representative Bothwell and Senator Yeater, of Sedalia, have demonstrated their ability to carry a most important movement through to a successful conclusion. The tactics adopted by the promoters of the scheme were of a most admirable character. At the beginning of the session they soon came to the conclusion that a still hunt was the only way for them to succeed. Consequently they went to work on that line and happily for their scheme they chose leaders who were especially well qualified for the work in hand. The introduction of the concurrent resolution really came like a loud clap of thunder from a clear sky. So closely had the men who were engineering the matter guarded their real purposes but few persons had any idea that there was anything serious in the wind. The night before the resolution was put through both houses there was a slight rumor that there was to be a sensation sprung the next day. When one would go to a prominent member and ask what was in the wind he would say 'I don't know,' but perhaps he did know all the same. A gentleman went to Representative Bothwell, of Sedalia, and said, 'Bothwell, what is up?' With the ghost of a smile upon his stoical countenance Bothwell would reply, 'Wait.' He was

in the position of a good general who knows his strength, but is too shrewd to give his plans away to his enemy. When Senator Yeater, of Sedalia, was approached with the question, 'What's new?' he would reply that he thought may be the election bill and the agricultural college bills would soon be taken up. But not a word about capital removal. For weeks past this still hunt has been going on. A number of emissaries have been busy learning the sentiments of the members without exciting their suspicion. For instance, one of these emissaries would engage in a friendly game of high five with different members and during the game would say, 'Well, I guess the capital removal scheme is dead for this session.' This would draw forth the sentiments of those present upon the subject and they would be promptly reported to the managing committee. This system of interviews was kept up until the exact position of every member was known. Having found that the sentiment was very strong in favor of removal the leaders of the movement made up their minds to strike while the iron was hot, and the result proved that they had been most sagacious in the estimates they had made. It was indeed a magnificent coup de etat and the men who managed the movement so adroitly should receive full credit for having made such a gallant and successful fight. Representative Bothwell is naturally one of the lions of the occasion. A Herald man talked to a number of Sedalia people, all of whom agreed that Bothwell was entitled to great credit for the services he had performed in the matter."

DICK'S TWO LOVES.

They Are Sedalia and Blackburn, and Both Are Booming Towns.

Colonel Richard T. Gentry, of Sedalia, Mo., and Blackburn, Ok., is in the city, says the Kansas City Times of Sunday.

According to Colonel Gentry, Sedalia is the capital of Missouri as much as though the governor's office was already there. Colonel Gentry owns most of Blackburn, which is located in Oklahoma, just across the Arkansas river from the country of the Osages.

The Osages are one of the richest tribes in the world. Every three months the government makes a payment of interest to the tribe, and a bridge across the river will be built at Blackburn this spring so that it will be easier for the Indians to get to town to spend their money. Mr. Gentry says that Blackburn is the biggest little town on earth, and that it will soon be one of the biggest cities on earth. Blackburn is a wide open town, and has a boom.

ALLEGED ASSAULT.

A Sensational Suit Filed at Fayette, Missouri.

Ed R. Spotts, attorney for the plaintiff, has filed in the Howard county circuit court the petition of Mrs. Sophia Robertson in a suit for \$10,000 damages against P. H. Burton.

She alleges that while she was at her home with her two children, aged one and five years, respectively, on the 21st day of January, last, P. H. Burton came to her house and made an assault on her, attempting to take hold of her, making vulgar and indecent proposals to her, and for the fright, pain and anguish of mind, shame and humiliation of the assault she asks \$10,000 damages.

The parties are of good families, the Democrat-Banner says, and have always borne good reputations.

In a recent editorial the Salem, Oregon, Independent says: "Time and again have we seen Chamberlain's Cough Remedy tried and never without the most satisfactory results. Whenever we see a person afflicted with hoarseness, with a cough or cold, we invariably advise them to get Chamberlain's Cough Remedy; and when they do they never regret it. It always does the work, and does it well."

THE MINTER BLOCK.

Gov. O'Meara Talks Regarding Its Purchase.

A SPLENDID INVESTMENT.

It Has Increased \$5,000 in Value Since He Became the Owner—Capital Removal.

Lieut.-Gov. John B. O'Meara a few months ago purchased the Minter block, Sedalia, for \$65,000, says the St. Louis Chronicle.

The property was purchased in the name of the O'Meara Realty company, having been originally owned by James E. Hall, now of St. Louis, and later by others. Alex G. Hunleth and Rutledge & Kilpatrick, of St. Louis, were also interested.

"Yes," said Gov. O'Meara, "the O'Meara Realty company purchased the Minter block in Sedalia some time ago. The details of the trade are all in possession of Mr. Lippelt. He made the deal and no effort was made to conceal it. It was made of record and was an investment for the profit there was in it."

"We had some property on the Iron Mountain road which the owners of the Sedalia property thought they could utilize in their business."

"The proposition to remove the capital had nothing to do with our investment, as we purchased before the matter was talked of here. The investment pays us, and we are satisfied."

Louis A. J. Lippelt, real estate agent at 622 Chestnut, who negotiated the deal for the Minter block, said that O'Meara had for some time been anxious to get rid of a granite quarry which he owned near Bonne Terre, Mo., about 90 miles south of St. Louis on the Iron Mountain. It consists of 188 acres, with machinery, mills, cottages, etc., and O'Meara valued it at \$40,000.

Agent Lippelt received three or four acre tract offers, among them being Ramona park, but no deal was consummated. The Minter block in Sedalia, he says, was then brought to his attention, and after some consideration a deal was made.

O'Meara gave his quarry and assumed a \$25,000 deed of trust on the Minter property, held by the People's bank of Sedalia. This makes the purchase price \$65,000.

The Minter block is really only half a block. It consists of a three-story stone front building, with two stores on the first floor and halls and offices on the other two. The building adjoins the Missouri Trust company and is just opposite the court house.

The deal was consummated shortly after New Year's.

Agent Lippelt says that the property has already increased about \$5,000 in value. The former owners were Frank J. Hunleth and Alex Kilpatrick, both of St. Louis.

J. B. Quigley, president of the Sedalia Waterworks company, and the Napoleon of the fine capital-removing lobby work which carried, dropped in at the Laclede Saturday morning.

After putting his name on the register, he whispered to Manager Wesley Austin that he had business on the outside and would not return until 2 p. m.

A prominent member of the Missouri assembly was in the hotel at the time, keeping a close watch on Capital-Remover Quigley. That gentleman was Col. John T. Short, of Jefferson City, the member from Cole county.

Mr. Quigley did not tell where he was going, and all kinds of stories were told in the Laclede lobby. Some had it that he was here to consult with Ed Butler and Filley, by way of getting a start on the capital-removal campaign, and others insisted that he came down to offer the presidency of the Commonwealth company to a prominent St. Louis financier in pursuit of the plan to get the heavy voting quarters of the state interested in the removal of the capital.

John B. O'Meara's presence in the city is also said to be connected with Mr. Quigley's.

Jeff City's Latest Claim.

Since the capital removal syndicate succeeded in getting through both houses the proposition to vote on the location of the capital in 1896, many incidents have happened—quite out of the ordinary Jefferson City routine. For instance, the Jefferson City people have been thumbing the constitution, until it is "dog-eared," to ascertain its requirements on the vote. They claim it will require a majority of

the total state vote to adopt the proposition and not merely a majority of those voting for and against the removal. This, they claim, has been decided by the supreme court in cases affecting counties, and the application holds good to the state at large.—Jefferson City correspondence Kansas City Journal.

Gloomy for Sleepy Hollow.

Sedalia has at last scored in her long and persistent contest with Jefferson City for the location of the state capital. The citizens of Jefferson City are making a desperate effort, through some of the members who are afraid of their constituencies to open up the question again in the legislature, but the indications are at present that the matter is decided so far as that body is concerned and the capital city has no hope left save in the voters. And if the action of the members may be taken as a fair indication of the sentiment throughout the state generally the prospect is not a cheering one.—Springfield Leader.

Sedalia is the Proper Place.

The Missouri legislature said that Sedalia is the proper place for the state capital, and it refuses to take it back. In other words, the able senators and representatives have the courage of their snap judgment.—Kansas City Journal.

Removal Talk at Washington.

There is much talk among Missourians about the matter of removing the capital of the state to Sedalia. Various opinions are expressed on the probable result of a vote on the question. One of the outgoing members who is in touch

with those opposed to the plan, is suggesting that a scheme is likely to be worked to have a number of places voted for in the contest, and thus work to Sedalia's disadvantage.—Washington correspondence Kansas City Journal.

Sedalia Has Won Nine Points.

In taking such a fall out of Jefferson City Sedalia has won the first nine points. The latter will probably get the capital, but Marshall will still be the best town in Missouri. Sedalia will not deny this.—Marshall Democrat-News.

How Jeff City Feels.

Jefferson City now feels a good deal like the fellow who went up against a game in which he was not allowed to cut, shuffle or deal.—St. Louis Chronicle.

A PROFANE SEXTON.

How He Stirred Up a Carthage Revival Meeting.

Evangelist James has been conducting a big revival at the First Baptist church in Carthage.

Last Friday night the pastor, Rev. R. K. Malden, asked that a window be lowered. The sexton, James Talbert, responded. There was a pause while he tugged at the window in vain. Then he said, "Parson, I can't get the d—d thing loose."

The congregation tittered and the parson said he thought the sexton had better come to the mourner's bench. It is supposed the sexton made a slip, as he has been a consistent member of the church for years.

To
Stop
Suddenly

And don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about BACCO-CURO. It is pure vegetable. You do not have to stop using tobacco with BACCO-CURO. It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An iron-clad written guarantee to absolutely cure the tobacco habit in all forms, are money refunded. Price \$1.00 per box or 3 boxes (30 days treatment and guaranteed cure) \$2.50. For sale by all druggists or will be sent by mail upon receipt of price. SEND SIX TWO CENT STAMPS FOR SAMPLE BOX. NOTES OF THE TURF.

What "Elmer" Says in the Kansas City "Times."

JIM RAMEY, SAM FULLER

And Others Who Will Handle Flyers This Year—Matters of Interest.

Jim Ramey has leased a 700-acre farm near Lexington, Mo.

Sam Full will open the season at the St. Joseph July meeting.

Jim Ramey now has in training Mr. Albert Dodd's mare by Wedgewood, 2:19 1/4.

F. J. Culler, Tipton, Mo., will train and campaign Ham, jr., 2:24 1/4, and Rustic Maid, 2:28.

Thomas H. Bagnell, of St. Louis, owner of Elk Hill Stock farm, Koping, Mo., is dying of liver complaint.

Captain Ryland Todhunter, L. M. Monsees, Col. George J. Dyer and W. B. Reid attended the Robertson sale Friday.

Colonel J. W. Sparks made a very successful sale at Marshall, and the good prices realized were largely due to his efforts.

At the Robertson sale Harry Downing paid \$200 for the bay gelding Compensation (3), by Concellor, 2:21 1/2, Nettie, 2:19 1/4.

Sam Gillman has in training at Sedalia: Lura, 2:29 1/4; Onward Ferrell (trotting), 2:27 1/4, now pacing, and a 2-year-old by Walnut Ky.

Miss Bailey, by Cyclone, the yearling filly that Doug Thomas campaigned through Missouri in 1893, brought \$525 at the Lexington auction.

Johnny Reynolds, who was care taker of John R. Gentry, now has charge of Theodore Shelton, and will act as first lieutenant for the stable.

Frank Campbell has been taking things easy at his home near Lexington, Mo., but will soon begin "honing" Billy Bolton, 2:15 1/4, and others.

Captain R. Todhunter, Dover, Mo., has sold to L. M. Monsees, of Smithton, Mo., twenty head of weanlings and yearlings by Merchant and Electric.

Jim Ramey likes the colt Adam, by Aladdin, so well that he has bought of William Crumm, of Osage, Kas., a half interest in this promising sidewheeler.

Daisy B., by Administrator, the dam of Ashland Wilkes, 2:17 1/4, and Patchen Wilkes Maid, 2:22 1/2, is owned by Mount Vernon Park farm, Pilot Grove, Mo.

Jim Ramey, who has been sick for the past two weeks, is out again. He says the 3-year-old Janey Shelton, by Ashland Wilkes Encore, can trot an eighth in 17 seconds.

J. R. Potts, who is training at Linwood Lawn Farm near Lexington, Mo., has Ernest B., 2:27 1/2; May Linwood (3), by Wilkomout; Jennette (1), by John R. Gentry, 2:03 1/4; Annie Wilkomout.

Will R. King, of Marshall, Mo., will campaign Nettie, 2:19 1/4; Bon Ton, 2:28 1/2; Buncheon Bell, 2:34 1/4; Pay Down and others through the Illinois Valley circuit.

Jim Ramey has named the yearling sister to John R. Gentry and Theodore Shelton Katy Collins, which causes him to smile every time the name is mentioned.

John R. Gentry wears a five ounce shoe forward, three and a half ounce behind, quarter and tendon not in front and coronets behind. Six pound harness, overdraw; rubber covered snaffle but is used.

Daisy B., dam of Ashland Wilkes, 2:19 1/4, and Patchen Wilkes Maid, 2:22 1/2, now owned by Mount Vernon Park farm, Pilot Grove, Mo., was a nice yearling by Rounds Sprague, and is now in foal to King Jay Bird.

Dr. Wm. Harrison, Marshall, Mo.,

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, fullness or bloating after eating, tongue coated, bitter or bad taste in mouth, irregular appetite, frequent headaches, irregular stools, nervousness, nervous prostration and drowsiness after meals?

If you have any considerable number of these symptoms, you are suffering from Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease the greater the number of symptoms.

No matter what stage it has reached, Dr. Pierce's Golden Medical Discovery will subdue it.

Mrs. Mary Mott, of Boston, Mass., writes: "Before using your Dr. Pierce's Golden Medical Discovery, everything I ate would ferment in my stomach, and my tongue was so terribly coated, I thought nothing would remove it. Since taking the 'Golden Medical Discovery,' I can eat a good meal, and enjoy it."

Mrs. Mott.

owns Norfleet, by Harry Thorndale-Corinne, by Magic; Sallie L., by Administer; Sis La Belle (3), by President Wilkes-Belle Robinson, and several colts and fillies by President Wilkes and Red Wilkes.

Elliston, by Electioneer-Lady Ellen, 2:29 1/2, is now owned by Arnold Bros., Sedalia, Mo., who protected their interest at the foreclosure sale of the three-fourth interest owned by the syndicate composed of J. R. Barrett, J. C. Thompson and B. F. Holway.

Mount Vernon Park farm, Pilot Grove, Mo., W. W. Harper, trainer, will have in training King Jay Bird, by Jay Bird, that Billy says can trot in 2:20; Mutual Life, by Red Shawmut; Star Bird (2), by King Jay Bird, and a 2-year-old by King Jay Bird, out of a sister to the dam of Miss Fullerton, 2:19 1/4.

One of the rising young drivers of the state is Herbert C. Collins, of Sedalia, who is now developing McDorton, 2:23 1/4, and Rattler, 2:22 1/4, both pacers, the latter driven to his record by Mr. Collins at Mexico, when his brilliant finish, it is said, would have put John Splan to shame. Sam Fuller is authority for the statement that his horse Rattler will take a record of 2:10 the first time he is started.

J. D. Shoewalter, of Lexington, Mo., says when he was looking for a stallion in 1891 Captain R. P. Todhunter, of Lexington, Mo., advised him to buy for \$1,500 a 2-year-old Red Wilkes-Mambrino Patchen colt whose grandam was running bred, but desiring a "standard" colt he declined, thinking the essential point was "the standard." Well, to make a long story short, that colt is now known as Ralph Wilkes, 2:06 3/4.

Jim Harrison, the genial horseman of Marshall, Mo., has a good collection of youngsters that will be developed by his brother, John Harrison, over the home track. Among others are Gambart, 2:27 3/4, by Gameleon, 2:25 1/2; Billy Lane, (3) by Elsmere-Belle Collins (dam of Bob Collins); a 6-months-old colt, "Elmer," by Elsmere Booth mare, and the good yearling filly Madeline Pollard, by President Wilkes-Al West, grandam by Abdallah 15.

Sam Fuller will not train at Wichita as reported, but is located for the season at Sedalia, where he now has Kentucky Union, 2:11 3/4; Star Hawk, 2:17 3/4, and the following without records: Saline (p) by Steele Caltha Robertson (dam of President Wilkes, 2:19 1/2); Rosaleta (p), by Judge Salisbury; Surpal (2), g. c., by Electricity-Sally Bente; Symphony B. (3), by Bezan; Morris Bezan (4), by Bezan; Frank Dreer, by Elliston; the great stallion Elliston, 2:35, by Electioneer-Lady Ellen, 2:29 1/2, (dam of three), and the "only" Bob Collins (2), by Elsmere-Belle Collins.

Ruined a Relative.

Eva Purdin, aged 13, has sworn out a warrant before Judge Kingdon, of Browning, Mo., charging Allen D. Filson, her brother-in-law, with whom she has been making her home, with her ruin, and that she will soon give birth to a child. Constable John Langdon went out to the farm where Filson lived and arrested him. Filson has employed counsel and will make a defense. He has been a resident of the county for several years and has always been considered a hard working and honest fellow.

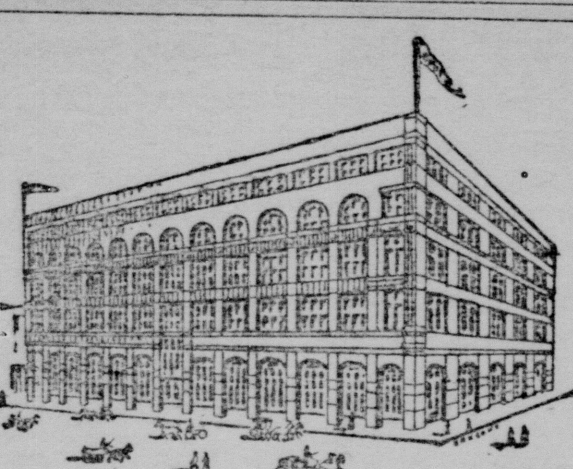

Burglars Enter a Bank.

Burglars entered the First National bank at Moberly last Friday night, and succeeded in working the combination of the main door, but were frightened away before they proceeded further. They also entered the real estate office of W. T. Stewart and the Moberly Steam Laundry, and in each instance were frightened away before any damage was done to the safes or any property taken.

Was He a Fraud?

A man calling himself an agent for the Nebraska sufferers collected a car load of provisions at Lexington, and now J. S. Grundy, of McCook, Neb., is after him, claiming that the stuff was shipped to the man's wife, and was for his own benefit.—St. Louis Post Dispatch.

Baled hay for sale, 109 East Fourth street.

The advertiser went to the Dress Goods stock—Grand avenue floor—to write up the new goods. He was handed a late Harper's Bazar in which was a description of some of the handsomest and most fashionable Dress Goods, shown at the most fashionable store in New York.

The description fits exactly our new goods—they are the same things.)

"Rough, lazily woven wools prevail for the dresses that are to be worn very soon in Florida and throughout the summer in all parts of the country. Light colors and lightness of weight are distinctive features of these new fabrics. Scotch effects are commended by the merchants, not in plaids but in Scotch colors arranged in small irregular checks.

"Green is the leading color in the new combinations—a yellowish green dominating a series of fine checks in varied arrangements, while mere stripes of darker green form stripes in another set of fine materials of which no two are alike. The blue in both checks and stripes is a bright cornflower shade. More showy checks nearly an inch square are so loosely woven that there is an open space in the center of each almost large enough to pass the finger through. Stylish colorings for these are reseda green, white and dull red together, or gray, white and chestnut brown and also bottle green, tan color and white. Such novelties are forty-eight inches wide. Seven or eight yards are required for a dress, and these openly woven fabrics almost demand a silk lining.

"More substantially woven tweeds for tailor gowns are in many different patterns of checks, green, brown and white being especially admired. Brown is, next to green, the most prominent color, and is checked with white and tan color, or else there is bright blue threads or those of pale orange in large crossbars amid irregular blocks. The boucle cloths are very effective in brown with dark reddish tints, in golden brown, and in pheasant shades thickly strewn with white loops of silky mohair. Lighter than all others are more decided checks, with white predominating, as pale blue, white and black with yellow bars, or else dull red and white crossed with leaf-green bars at wide intervals.

"Tailors will make much use of whipcords in neat reversed stripes closely woven to form a smooth surface that repels dust. These are for traveling and walking dresses. They come in blue-grays, tobacco brown, tan and drab shades, measuring forty-eight inches in width. Of the same width are the popular hair stripes in whipcords, in stylish green with white, navy blue and white, and Havana brown with ecru. Serges of well defined twills came in three or four excellent shades of brown and tan color, in cornflower blue, in two reds—one bright, the other dull—and, of course, in the servicable navy blue. These are full double width."

And so it goes along the entire line of hundreds of pieces.

What the Difference Is?

Somebody asks what is the difference between a journalist and a newspaper man. There may be no exact definition, says the Kansas City Journal, but the newspaper man generally throws into the waste basket what the journalist writes.

A Timely Topic.

At Sunnyside school, house next Friday night, the subject for debate will be, "Resolved, That the capital of Missouri should be located at Sedalia instead of Jefferson City."

The Democrat is willing to wager to 1 on an affirmative decision.

RAILROAD RUMBLE.

Judgment Against a Company Reversed.

AN IMPORTANT OPINION.

Items of Interest Picked Up From Various Sources for the Benefit of "Democrat" Readers.

The United States court of appeals handed down several decisions Saturday, says Sunday's Globe-Democrat. An opinion by Judge Thayer reverses the judgment in the Indian territory court awarding Nannie Cameron a judgment against the Santa Fe road because its agent sold her a ticket from Gainesville, Texas, to Moore, a small town in Oklahoma, and she boarded a train that did not stop there, and she, being an invalid, was greatly inconvenienced, and her health was greatly impaired.

She relied on representations made to her brother by the Gainesville ticket agent a month or so before the journey, to the effect that the train stopped at Moore; but Judge Thayer holds that this assurance was too remote to make the company liable. The question then was whether there was any liability on her ticket, which was for transportation from Gainesville to Moore.

It seems that, instead of taking a train that usually stopped at Moore, she took one that was not scheduled to stop there. Judge Thayer remarks that the law is well settled that when a railroad sells a ticket from one point to another on its line, it simply engages to carry the passenger to its destination in the customary way which it has adopted for the running of its trains. In the absence of a special contract to that effect, a passenger has no right to require a train to stop at a particular station, where, according to the schedule, it does not ordinarily stop. So long as a railroad company furnishes reasonable facilities for reaching all stations on its line, passengers who desire to stop at a particular station should take trains that usually carry passengers to that place. The judgment below is reversed, with directions for a new trial.

Will Go to the Santa Fe.

M. A. Martin, until last year superintendent of bridges and buildings on the M., K. & T., a position he had held since 1873, has accepted a similar position on the Santa Fe, with headquarters at La Junta, Colo., says the Parsons Sun.

The retirement of Mr. Martin from the "Katy" was in nowise due to any dissatisfaction on the part of the company with his services, but to a retrenchment policy made necessary by the general business depression, and while the company abolished the office of superintendent of bridges and buildings, yet it has seen fit to employ Mr. Martin to assist Chief Engineer Wilson in the supervision of the construction of two new spans to the Boonville bridge.

During his long service with the "Katy," Martin so familiarized himself with matters pertaining to his position that there was not a foot of bridge or timber work on the entire system but what he was minutely acquainted with, and no accident to trains, due to any carelessness or workmanship on the part of his department, was ever charged up against him in his long career on the M., K. & T. system. Few men ever served a corporation more loyally or successfully than he, and no one is more thoroughly familiar with Martin's fitness and capabilities as superintendent of bridges and buildings than General Manager Frey, of the Santa Fe.

Coach, Cab and Caboose.

Bobby Black left at noon for Jefferson City, and will return tomorrow.

The M., K. & T. employees at this point are now being vaccinated by the wholesale.

Roadmaster A. Manley, of the Missouri Pacific at Lexington, is in the city today.

A new set of Fairbanks' scales are being put in at the depot for the baggage room force.

Depotmaster Mont Carnes resumed work today, after a few days' sojourn at Marshall and Sweet Springs.

Roadmaster John Jamerson, of the M., K. & T., returned to Nevada this morning, after a short sojourn here.

W. B. Doddridge, general manager of the Missouri Pacific, passed west yesterday afternoon in his private car, which was attached to

train No. 1. He was joined here by Superintendent L. D. Hopkins.

Edwin Adams, freight and passenger agent for the M., K. & T. at Parsons, passed south this morning from Hannibal, where he spent the Sabbath.

Conductor Jack Dean, of the Union Pacific out in Idaho, arrived in the city last night on a visit to his family. The belief prevails, however, so Jim Gossage says, that Jack is here as advance agent for "Joe, the Turk," of Salvation army fame.

The exposure to all sorts and conditions of weather that a lumberman is called upon to endure in the camps often produces severe colds, which, if not promptly checked, result in congestion or pneumonia. Mr. J. O. Davenport, ex-manager of the Fort Bragg Redwood Co., an immense institution at Fort Bragg, Cal., says they sell large quantities of Chamberlain's Cough Remedy at the company's store and that he has himself used this remedy for a severe cold and obtained immediate relief. This medicine prevents any tendency of a cold towards pneumonia and insures a prompt recovery.

BLOWN UP.

The Capital Building—Jefferson City Excited.

Yesterday an explosion was heard in this city that sounded like the distant rumbling of thunder. Immediately there flashed over the telegraph wires inquiries regarding the capital building, as the supposition was that it had been blown to atoms by infuriated citizens of the village located in Sleepy Hollow. But this was not the case. It was simply a woman blowing the praises of Brooks' Pond Lily Cream, the most wonderful remedy for rough skin in the world. Every bottle guaranteed.

At the Barracks Tonight.

Captain Garabed, the converted Turk, dressed in Turkish costume, will conduct special meetings at the Salvation army barracks tonight and tomorrow night. All should hear him. He is a very original character and wherever he goes he invariably attracts very large crowds. He is a musician, playing upon various instruments. Ten cents admission will be charged at the door at each meeting.

FIRE IN A COAL MINE.

Two Convict Miners Suffocated and Eighteen Others Narrowly Escaped Death.

BIRMINGHAM, Ala., Feb. 25.—A fire occurred in Rock Slope, of the Tennessee Coal, Iron and Railroad Co.'s mines at Pratt City yesterday morning that resulted in the death of John Patton and Louis Stevens, two miners, and more or less serious injury of eighteen others. Twenty miners, all convicts, were in Rock Slope near the air shaft, at 2:30 o'clock a. m. when they detected the smell of smoke, and shortly afterward an immense volume of it came wheeling toward them from the engine room, which was between the air shaft and the cage leading out of the mine. The engine usually contains no fire, but is used to pump compressed heat into the mines, hence the origin of the fire, which started in the engine room, is a mystery.

Driven by smoke, the twenty men hurried to the air shaft, and there huddled together to keep from suffocating. Meanwhile the smoke became thicker as the fire issuing from the engine room sized seven trams, and just on the outside a lot of waste and oil burned furiously. Breathing became an affair of extreme difficulty. Twenty-three mules in the stable in the mines also felt the smoke and tried to escape and tore about, kicking one another to death and making hideous cries.

John Patton and Louis Stevens finally left the crowd at the air shaft and tried to get to the cage shaft. They never reached it, but were afterwards found dead near the engine room. One of the men had his head beaten almost into a pulp, indicating that he had tried to kill himself rather than suffocate to death. Smoke seen issuing from the shaft brought help via the cage, and in three hours the fire was out and the eighteen men at the air shaft were brought up in a more or less serious condition from suffocation. The mules, worth \$3,000, were suffocated or killed by one another's kicks. News as to the condition of the rescued convicts is that they will recover.
